The minutes of the meeting of the Planning Committee held on 6<sup>th</sup> August 2024 were received and signed as a correct record.

187. **PUBLIC PARTICIPATION**

Messrs Tom Biddle and Mark Edwards of Baker Estates attended the meeting to provide an update regarding reserved matters Application No. 24/002200/MAJ Parcel 2.1 East Wolborough, Wolborough Barton, pursuant to planning permission 17/01542/MAJ for the construction of 150 dwellings (Phase 2.1) (approval sought for the access, appearance, landscaping layout and scale). Members were informed that very little had changed in relation to the documentation provided to support the application, but that detailed discussions had been held with the Local Planning Authority in relation to insignificant details such as boundary treatments, finishes and demarcation boundaries for car parking areas.

Members questioned the representatives regarding issues including the following:

- Highways issues relating to access for refuse collection vehicles;
- The mix of types of dwellings to be constructed;
- Water harvesting and solar panels;
- Affordable housing and housing for rent;
- The mix of affordable and open market dwellings.

188. **CONSIDERATION OF LOCAL PLAN & NEIGHBOURHOOD DEVELOPMENT PLAN**

The Committee reaffirmed their recommendation that applications for all new build properties and where appropriate refurbished sites, give regard to the policies included in the Newton Abbot Neighbourhood Development Plan 2016-2033 (NANDP) which contributes to the District Local Plan. In particular, to the inclusion of renewables within the development as per Policy 1 NANDP and given the rise in electric vehicles, that any such application with an off-street parking space, consider the installation of an electrical vehicle charging point as per Policy 2 NANDP. In addition, the Committee recommended that new build properties should include provision for a sustainable heating system given the Government's intention to cease the use of mains gas central heating from 2025.
